

Your people. Our blueprint.

We work through your sales team to deliver a complete inside sales solution. We recruit and train your employees, and empower them with the tools needed for success.

We spec the environment, recommend a technology stack based on your unique requirements, develop your outbound playbook, recruit and train the team on-site, and design a cadence that delivers predictable results.

Your own operation, backed by us

Recruit highly-qualified sales development representatives, based on our unique profile proven over countless successful hires.

Develop a custom outbound playbook detailing exactly how your team will find the right prospects

Train your team on site with a customized program designed to get results within days.

Integrate your team with our vibrant, virtual SDR community for collaboration, support, camaraderie, and incentives.

Integrate a technology stack in your CRM instance, based on the best tools proven to work.

Install custom dashboards to monitor real-time performance.

Design a cadence that leverages phone, email, and social networking to maximize conversations.

Support you with anything you need to succeed, from comp plans to technical support.

A high performance inside sales engine

In about 45 days we can transform a plan into a complete outbound lead prospecting and sales engine, and make sure it ramps to success.

Taking the next step together. We offer a variety of options and prices to support your team. Contact us to learn more.
